

**ATTENTION: PARENTS OF
ALL MIDDLE SCHOOL
STUDENTS**

New Immunization Laws

Immunizations must be recorded on a Georgia Department of Human Resources Form 3231 (not your doctor's stationery) and on file in the student's permanent school record. The Health Department or your Doctor must document this information. Documentation of the following three immunizations is mandatory for middle school students:

1. All students must have at least two doses of MMR (Measles, Mumps, Rubella).
2. All students must have a three part series Hepatitis B (3 shots).
3. All students must show that they have received two doses of the Varicella/Chickenpox vaccination or show proof of immunity - which indicates that they have already had Chickenpox.

For more information contact your local Health Department or your doctor.
